

Dear Conference Participant,

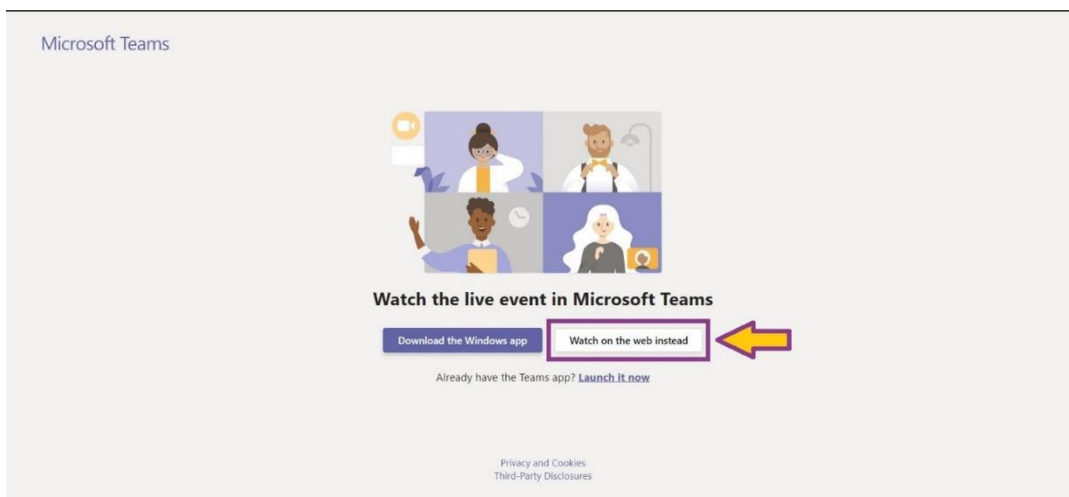

The following description will hopefully be of help to you to easily join the conference via the Microsoft Teams platform.

In our other letter, we send you the conference day links (there are 2 separate links per day for the days when we have a morning as well as an afternoon session).

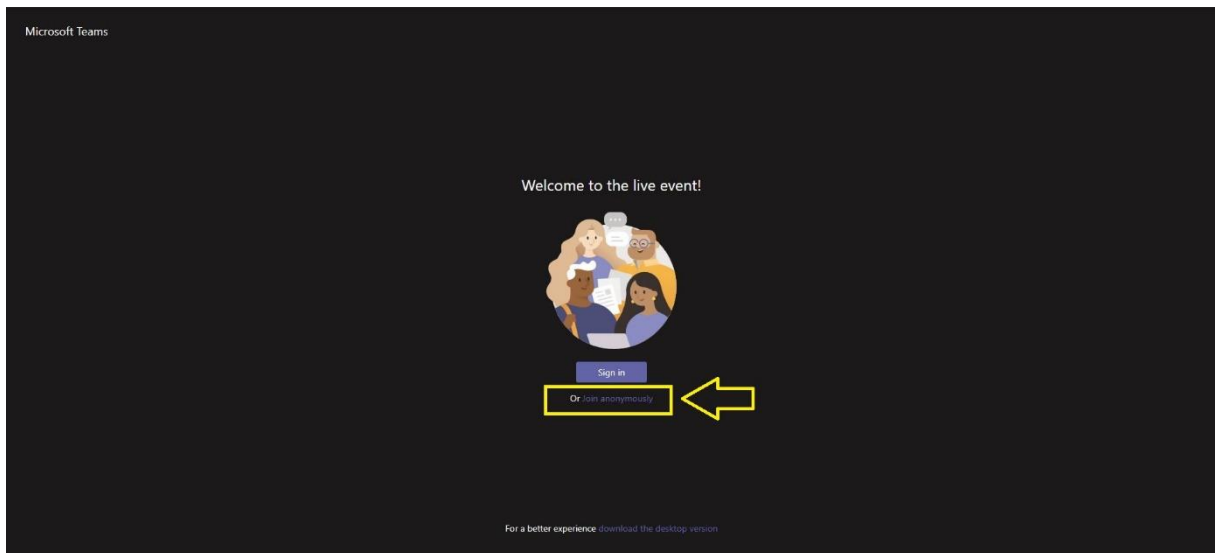

There is no need to download the Teams application: you can directly join the event via the browser by clicking on the link or, if you would like to log in by phone, you can use the QR codes.

The following pictures will help you join the conference:

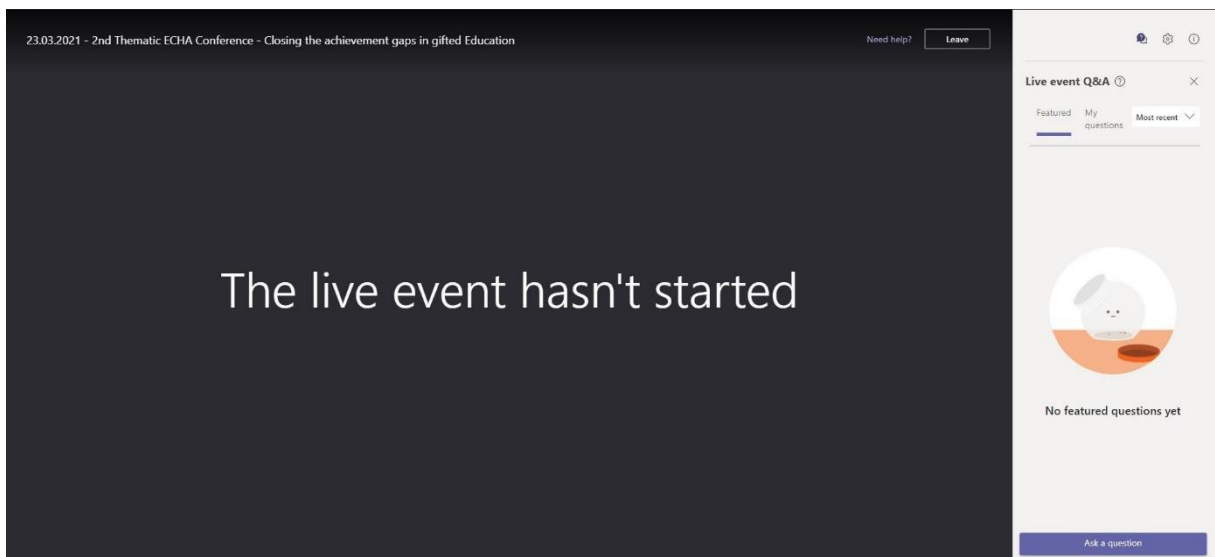

After opening the proper link (sent in the other letter) in your browser, click on “Watch on the web instead”:

After that, click “Join anonymously”:

If you see the following picture, you have joined the event.

On the right side, under the “Live event Q&A” tab you can ask questions (with your name or anonymously) about the presentations.

You can try it before the event!

Thanks and warm regards,

The organisers
